REPORT OF THE SUPERINTENDENT OF SCHOOLS

———

To the School District of Dunbarton:

I hereby submit my annual report as Superintendent of Schools.

The current school year opened with no changes in the teaching staff. Mrs. Elizabeth Fottler and Mrs. Marion Hayes continued at the Center School and Miss Sarah Ames at Montalona. The enrollment at the Center School increased from 51 to 71, due mainly to a very large first grade. The enrollment at Montalona, which a year ago hit a new high, returned more nearly to a normal figure.

Many of our New Hampshire towns are faced not only with increased enrollments for the current year, but also with increasing numbers of pre-school children. Such an increase in pre-school children demands that the districts immediately consider a building program.

The Dunbarton Board was concerned as to whether a comparable situation existed in this town, and had a pre-school census taken. Obviously, we can not prophesy the number of new families which may move into town, but the number now in residence, rather than to serve to increase the present enrollment, will on the contrary tend to slightly decrease our school population during the next few years. It will not be necessary, therefore, for Dunbarton to concern itself at this time with the problem of pupil housing.

A second problem confronting the schools of our state is the teacher shortage. In previous reports I have at some length considered the problem with you, and for that reason I will not go into further detail. Briefly, the problem is still critical; the schools of the country are not able to secure and

hold competent teachers. As I said in my report last year, and I should like to repeat, we in Dunbarton are extremely fortunate in this regard. The training and experience of our teachers is far above that found in schools of similar size.

The third problem confronting the schools is that of finance. Costs have been steadily increasing during the past five years. The State Aid Bill passed by the 1947 legislature served to absorb a fraction of this increase. Under the old state aid program, Dunbarton's share was in the vicinity of $2,800. For the school year 1947-48 (under the new law) Dunbarton has received the sum of $5,900, reducing the assessment on the town by some $3,000.

At the present writing, the proposed Dunbarton budget for 1948-49 calls for no additional funds over the amount appropriated in March 1947.

During the summer of 1947 minor alterations were made in the Center School. The rearrangement of the anti-room has provided a more satisfactory noon lunch program.

Last year noon lunches were conducted from December first to spring vacation in April. During that period of 78 school days, 3856 lunches were served to the children. In addition to the money paid by the pupils, the district received federal reimbursement of approximately $300, and also an additional amount for equipment. The Dunbarton Women's Club was also responsible for the success of the program through its contribution of funds and equipment. I should like to express my appreciation to the club and to all others who have had a part in the carrying on of the program.

Respectfully submitted,

LEWIS F. FOOTE,
Superintendent of Schools.

REPORT OF SCHOOL NURSE

Good health is given first place among the needs of children. All should be as healthy as possible, and should know how to remain healthy.

In our work with the school children, we have had and continue to have the support and understanding of the parents and the several organizations in the towns. In Dunbarton the Community Club, the Women's Club, the Grange, the Red Cross and the School Board have been actually interested in aiding in correcting at least four of the most outstanding and common physical defects found in school children; namely, teeth, vision, hearing and tonsils. I wish every child who is to enter school for the first time in the fall could have a thorough examination by a physician and by a dentist in the spring or early summer. This would allow the summer time for correction of defects and for vaccinations.

Frequent use of clinics afford an opportunity for an early diagnosis, treatments and corrections. Nearly every pupil in our schools has had the Patch test for tuberculosis, and many have been immunized for diphtheria, whooping cough and tetanus before entering school.

About 90 pupils were examined in the fall of 1946, the beginning of our school year for 1947.

REPORT OF THE FOREST FIRE WARDEN

Another year has passed with no loss from forest fires.

Due to the drought last fall no burning was done that means a lot of rubbish is waiting to be burnt this spring.

Get your permit and burn as early as possible before the woods get dry enough for a fire to spread.

Don't burn when the ground is dry enough for a fire to run, always have tools close at hand before starting fire, try to do your burning after four P.M. on still days.

Always get a permit before starting a fire, sign both copies, return the blue copy at once to your fire warden. They have to be sent to the District Fire Chief on the 15th and 20th of each month.

At this time I want to thank every one for the fine cooperation during the fire hazard last October for so generously giving your time and use of autos patrolling the roads.

WILLIAM L. MERRILL,
Forest Fire Warden.

FOREST FIRE PROBLEM SERIOUS

The year 1947 was one of the worst periods of drouth and forest fire occurrence in eastern United States history. Lack of water ruined crops, lowered water levels and dried up brooks everywhere. Three months of deficient rainfall and abnormally high temperatures resulted in many fires which were mostly well controlled and kept within bounds. Only the high winds beginning on October 23rd caused a few fires to escape beyond immediate control. These few fires resulted in burning some 15,000 acres and the loss of 63 or more buildings in four New Hampshire towns.

All October fires were costly. They burned deeply in the ground and required day and night patrol of large crews of men until the rains came late in October. Towns which escaped from serious fires might easily have been in the midst of the most serious conflagrations we had.

Governor Dale closed the woods effective at midnight of October 15th. With the blow-up of October 23rd, a second proclamation closed all back roads and authorized towns to inaugurate patrol. The effect of this was to cut down subsequent fires for the rest of the dry period.

Local fire warden forces performed an admirable job to hold the more than 200 fires that occurred during this October period. Many men were taxed to the utmost as the emergency continued. To them and all those who did their work, the people of New Hampshire owe a debt of gratitude. The state forest fire control agency based on local town wardens and town crews wherever adequately equipped rose to the occasion and met the test in whatever town their services were needed.

It is now time to take stock everywhere of our fire fighting facilities for the season ahead and to make them adequate

where necessary. To this end town fire plans and training programs for wardens, deputies and other key men in each district are being arranged or in progress. If equipment and tools are insufficient properly to equip the available man power in each community with the right tools for the job, they should be provided for at once. The yearly addition of fire tools to the town supply will generally need to be built up. The state sells tools to the towns and shares one-half their cost. Good equipment is important and can help greatly to keep both damage and fire costs at a minimum.

For many years we have requested our wardens not to issue burning permits except on rainy days. This regulation will be in effect again this year as it is one of the best means of assuring such fires from getting out of control. Nine out of every ten fires can be prevented, 98 percent of all fires being due to human carelessness. Be sure to get a permit for any fire in or near woodland when the ground is free from snow. Be sure your fires are always out before you leave them. Help us in getting the travelling public to keep from throwing out lighted matches or cigarettes. Be careful of all fires in or near woodland.

THOS. J. KING,
District Chief.
